

What are Web Family Cards?

Simple way of producing web content with Reunion Look and Feel

Produces a complete set of web pages

You can easily upload to MobileMe or a Web site account

Web Cards replicate the way you view data in Reunion

Example Site that uses Web Family Cards

http://home.gci.net/~tchris/genealogy/WC_TOC.HTM

Pre-requisites

Need place to put the web pages

ISP

Domain Name

Reunion App

Familyfile database with data in it

Should have multimedia for the web site

Should have narratives for each family

How to Generate the Pages

1. Pick the cards you want (kind of like exporting)
 - a. Ancestors
 - b. Descendants
2. Go to your home Card
3. Click CREATE | WEB FAMILY CARDS
4. Select marked people
5. Specify Includes
6. Give the Web Cards a Title
7. Destination - Send to a Web Folder
8. Web Preferences – Options
 - a. Cover Page - Choose a 640x480 graphic, Intro
 - b. Files - Use index.html
 - c. Footer - Change as necessary
 - d. Sources - Include Multimedia
 - e. Web Media - Include, looks very nice
9. Web Preferences - Style
10. Save the Web Cards to your Desktop

How to send the web pages to a Web Site

Mobile Me: Copy the pages to the idisk folder \web
